Strangers to Relatives Sergei Kan 2001-01-01 Strangers to Relatives is an intimate and illuminating look at a typical but misunderstood part of anthropological fieldwork in North America: the adoption and naming of anthropologists by Native families and communities. Adoption and naming have long been a common way for Native peoples in Canada and the United States to deal with strangers who are not enemies. For over a century, adoption and naming have also served as an important means for many Native American and First Nation communities to become connected to the anthropologists visiting and writing about them. In this outstanding volume, leading anthropologists in the United States and Canada discuss this issue by focusing on the cases of such prominent earlier scholars as Lewis Henry Morgan and Franz Boas. They also share personal experiences of adoption and naming and offer a range of stimulating perspectives on the significance of these practices in the past and today. The contributors explore the impact of adoption and naming upon the relationship between scholar and Native community, considering in particular two key issues: How does adoption affect the fieldwork and subsequent interpretations by anthropologists, and in turn, how are Native individuals and communities themselves affected by adopting an outside scholar whose aim is to learn and write

about them? Strangers to Relatives not only sheds valuable light on how anthropology fieldwork is conducted but also makes a seminal contribution to our understanding of the ongoing, often troubled relationship between the academy and Native communities.

So You Want to Adopt...Now What? Sara Dormon 2006-08-07 One in seven couples struggle with infertility. Other parents long to add another child to their family who needs a home. Whatever the reason, many couples who decide to pursue adoption do not realize the often unnerving, stressful, emotional ride it can be. Deciding to adopt means moving into uncharted territory. There are many emotional highs and lows, as well as psychological, mental and spiritual ramifications. The authors prepare prospective adoptive parents for the adoption process, from helping them examine their motives for adopting to making practical decisions about the type of adoption to pursue. They also explore the adoption

process from the viewpoints of the prospective adoptive parents, the birth parents, the adoptee, attorneys and adoption agencies. This book is an indispensable resource for anyone considering adoption.

Special-needs Adoption James Aaron Rosenthal 1992 This volume reports the results of a large-scale survey of families who adopted children with "special needs": older children, minority children, handicapped children, or sibling groups. It assesses perceptions of social work services, parent-child relationships, family functioning, child behavior, school performance, and other aspects of adoptive family life. Rosenthal and Groze compare outcomes for different types of adoptions, including adoptions of children of different ages, adoptions by minority families, transracial adoptions, single-parent adoptions, adoptions by less educated and less wealthy families, adoptions by foster parents, adoptions of children with handicaps, and sibling group adoptions.

Sex and Friendship in Baboons Barbara B. Smuts 1985 Those who have been privileged to watch baboons long enough to know them as individuals and who have learned to interpret some of their more subtle interactions will attest that the rapid flow of baboon behavior can at times be overwhelming. In fact, some of the most sophisticated and influential observation methods for sampling vertebrate social behavior grew out of baboon studies, invented by scientists who were trying to cope with the intricacies of baboon behavior. Barbara Smuts' eloquent study of baboons reveals a new depth to their behavior and extends the theories needed to account for it. While adhering to the most scrupulous methodological strictures, the author maintains an open research strategy--respecting her subjects by approaching them with the open mind of an ethnographer and immersing herself in the complexities of baboon social life before formulating her research design, allowing her to detect and document a new level of subtlety in their behavior. At the Gilgil site, described in this book, she could stroll and sit within a few feet of her subjects. By maintaining such proximity she was able to watch and listen to intimate exchanges within the troop; she was able, in other words, to shift the baboons well along the continuum from "subject" to "informant." By doing so she has illuminated new networks of special relationships in baboons. This empirical contribution accompanies theoretical insights that not only help to explain many of the inconsistencies of previous studies but also provide the foundation for a whole new dimension in the study of primate behavior: analysis of the dynamics of long-term, intimate relationships and their evolutionary significance. At every stage of research human observers have

underestimated the baboon. These intelligent, curious, emotional, and long-lived creatures are capable of employing stratagems and forming relationships that are not easily detected by traditional research methods. In the process of unraveling their complex social relationships, Smuts has revealed that these masters of strategy and aggressive competition are equally capable of patience, tenderness, and concern. "Barbara B. Smuts" is professor of psychology and anthropology, University of Michigan, Ann Arbor. She is also the author of *Primate Societies*.

Inside Transracial Adoption Gail Steinberg 2012-02-15 Inside Transracial Adoption provides creative, confident and pro-active guidance on how to build close, loving, and very real families consisting of individuals who are proud and culturally competent members of differing races.

Drawing on research and personal experience, Steinberg and Hall offer detailed, step-by-step, get-real guidance for families about tough issues they have to face relating to race and adoption in domestic or international transracial adoptions: What's "normal?" Where do we live and go to school? Does class have an influence? How do children develop racial identity? What kind of impact does being raised by white parents have on a black child? Combining humor with empathy and hard truths, this book is an established classic guide to living Inside Transracial Adoption. It is essential reading for parents and the people who support them: whether considering transracial adoption for the first time or experienced veterans.

Gaby, Lost and Found Angela Cervantes 2013-07-30 Wanted: One amazing forever home for one amazing sixth grader."My name is Gaby, and

I'm looking for a home where I can invite my best friend over and have a warm breakfast a couple of times a week. Having the newest cell phone or fancy clothes isn't important, but I'd like to have a cat that I can talk to when I'm home alone." Gaby Ramirez Howard loves volunteering at the local animal shelter. She plays with the kittens, helps to obedience train the dogs, and writes adoption advertisements so that the strays who live there can find their forever homes: places where they'll be loved and cared for, no matter what. Gaby has been feeling like a bit of a stray herself, lately. Her mother has recently been deported to Honduras and Gaby is stuck living with her inattentive dad. She's confident that her mom will come home soon so that they can adopt Gaby's favorite shelter cat together. When the cat's original owners turn up at the shelter, however, Gaby worries that her plans for the perfect family are about to fall apart.
