Learn about the never-fail campfire, cooking with cast iron, how to change a flat, and much, much more. Follow the growing Glamping movement at maryjanesfarm.org and nationalglampingweekend.com. Like the infamous Calamity Jane, who said, "I figure if a girl wants to be a legend, she should go ahead and be one," MaryJane Butters coined the term glamping years ago when she founded her unusual Idaho canvas wall-tent bed & breakfast, which was featured in The New York Times Magazine and Travel & Leisure as "the place to be." Legend status achieved, MaryJane lives in Moscow, Idaho, where she runs her many businesses, which include a successful organic farm, product lines, a bed & breakfast, and MaryJanesFarm magazine. Peter and his sisters grow up in an airless house of order and obligation, though secrets and half-truths simmer beneath the surface. At the first opportunity, each of the girls lights out on her own. But for Peter, escape is not as simple as fleeing his parents' home. Though his father crowned him "powerful king," Peter knows otherwise. He knows he is really a girl. With the help of his far-flung sisters and the sympathetic souls he finds along the way, Peter inches ever closer to his own life, his own skin, in this darkly funny, emotionally acute, stunningly powerful debut. Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Ducks Cherie Langlois 2011-05-03 Written by hobby farmer Cherie Langlois from Washington state, Ducks is a fantastic overview of these entertaining and adaptable waterfowl. The author begins by asking "What do these water-crazy birds have that make them as much an asset to farms as landlubbing poultry?" She provides many answers that defend the virtues and versatility of ducks and argues that the duck is superior to the ubiquitous chicken in many ways. As a zoologist, Langlois has a gift for elucidating the details of the waterfowl's anatomy, traits and behavior, all revealed in the first chapter "Meet the Duck." She proceeds by leading readers through the process of choosing the right ducks for their hobby farm, considering the various domestic breeds (from bantams to heavyweights) as well as the sex of the birds and number of birds/breeds ideal for beginning a hobby-farm flock. The book offers advice on housing these very adaptable birds that thrive in various climates and regions throughout the world: space requirements, ventilation, flooring, feeders, and fencing. Naturally, ducks need water to thrive in the form of an existing lake, a manmade pond or simple duck pools, all discussed in the housing chapter. "The Duck Diet" chapter discusses the nutritional needs of the flock and various feeding options farmers and ranchers can consider. Seasoned duck aficionados interested in getting into the business of ducklings will find much information in the breeding chapter, which catalogs methods for hatching, incubators, mama duck and baby care, and more. The health of livestock is always a major consideration for the hobby farmer, and the chapter "Flock Health and Handling" offers a mini course in disease prevention, proper hygiene, recognizing symptoms of illnesses, and dealing with common maladies. The advantages of duck farming; the superior quality of duck eggs, down, and meat--are the focal point of the final chapter "Harvesting the Rewards," likely the first chapter the dubious duck farmer will read prior to taking the dive into ducks. The book concludes with appendices of endangered duck breeds and duck diseases, resources, a glossary of terms, and a complete index.

Trailer Life's RV Repair & Maintenance Manual Bob Livingston 1989 "The complete technical manual and troubleshooting guide for motorhomes, travel trailers, fifth wheels, folding campers, truck campers, and vans"--Notes.

Language and Love William Mallard 1994 This is the first work to combine an introduction to Augustine's Confessions with a larger outline of his mature theology. Mallard provides guidance for reading the narrative Confessions (Books I-IX) and at the same time, by certain extensions and comments, reveals the three major topical divisions within Augustine's thought: creation, salvation, and the City of God. Mallard is able to do this because Augustine's affirmation of the good of Creation, his view of the human will and God's grace (and the nature of evil), his sense of a religious people's identity and their hope, and his view of faith and reason were all essentially in place at the time of the Confessions. Mallard argues that Augustine was not in search of himself in a modern sense but in search of a language of prayer, praise, and truth that would locate him within God's grace. That language turned out to be the language of Incarnation, which remains compelling and inviting today. As a classic work, the Confessions is a monument to its own time, but it has striking resonances for our own. Mallard's interpretation will challenge readers to begin working out their own. The Confessions endures because it is a story that illumines the stories of many, even to the present day. To analyze how it is like, and unlike, modern experiences is to exercise both mind and heart. In that respect, Language and Love is a kind of theological meditation on the Confessions testing out a horizon of belief. Mallard views Augustine as a master of the spoken word in an age of broken and abused language and the Confessions as a historic masterpiece of rhetoric. He contends that Augustine is the ancestor of many today who offer social and political hope through fresh rhetorical vitality.
