Of Love and Papers Laura E. Enriquez 2020-04-28 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Of Love and Papers explores how immigration policies are fundamentally reshaping Latino families. Drawing on two waves of interviews with undocumented young adults, Enriquez investigates how immigration status creeps into the most personal aspects of everyday life, intersecting with gender to constrain family formation. The imprint of illegality remains, even upon obtaining DACA or permanent residency. Interweaving the perspectives of US citizen romantic partners and children, Enriquez illustrates the multigenerational punishment that limits the upward mobility of Latino families. Of Love and Papers sparks an intimate understanding of contemporary US immigration policies and their enduring consequences for immigrant families.

The World Until Yesterday Jared Diamond 2013-01-10 From the author of No.1 international bestseller Collapse, a mesmerizing portrait of the human past that offers profound lessons for how we can live today Visionary, prize-winning author Jared Diamond changed the way we think about the rise and fall of human civilizations with his previous international bestsellers Guns, Germs and Steel and Collapse. Now he returns with another epic - and groundbreaking - journey into our rapidly receding past. In The World Until Yesterday, Diamond reveals how traditional societies around the world offer an extraordinary window onto how our ancestors lived for the majority of human history - until virtually yesterday, in evolutionary terms - and provide unique, often overlooked insights into human nature. Drawing extensively on his decades working in the jungles of Papua New Guinea, Diamond explores how tribal societies approach essential human problems, from childrearing to conflict resolution to health, and discovers we have much to learn from traditional ways of life. He unearths remarkable findings - from the reason why modern afflictions like diabetes, obesity and Alzheimer's are virtually non-

existent in tribal societies to the surprising benefits of multilingualism. Panoramic in scope and thrillingly original, *The World Until Yesterday* provides an enthralling first-hand picture of the human past that also suggests profound lessons for how to live well today. Jared Diamond is the Pulitzer Prize-winning author of the seminal million-copy-bestseller *Guns, Germs, and Steel*, which was named one of TIME's best non-fiction books of all time, and *Collapse*, a #1 international bestseller. A professor of geography at UCLA and noted polymath, Diamond's work has been influential in the fields of anthropology, biology, ornithology, ecology and history, among others.

The Motivation Manifesto Brendon Burchard 2014-10-28 "The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Searching for the Lost Smile Lazar Trifunovic 2018-12-04 Searching for the Lost Smile recounts a journey of self-discovery and personal growth undertaken by the author in an attempt to transform his life from a state of chaos to a state of equilibrium. It is a story of a qualified doctor who, disappointed in the powers of conventional medicine to help him deal with his own troubles, sets out to investigate healing methods used in different cultures across the globe. His journey takes him to unusual places, some hidden and remote, miles off the beaten track, others visited by millions in some of the largest gatherings on Earth. He is a witness to exorcism rituals in the caves of Ethiopia, experiences shamanic rituals in Peru and spends time in the hospital for lepers in Varanasi. But in search of his true self he also journeys into the depths of his own being. He discovers peace and tranquillity of Zen gardens in Japan and the emptiness of the American desert. He learns humility in the rarefied atmosphere of Kathmandu. He encounters Yoga and Homeopathy in India and the spiritual healing through psychosynthesis at the Re-Vision College in London. This is the story of these two parallel journeys and the lessons they bring forth as they are finally made to converge. Whether travelling inwardly or outwardly, the experience proved rich in insights and revelations, with gleaming nuggets of wisdom often found in most unexpected places... This book can help us realise that there is much more to life than being comfortable, entertained and having material possessions. It aims to nourish the soul and, for those who learn to read the signs by the road, it can provide motivation to embark on their own quest of self-discovery. Illustrated with photographs taken during author's travels.

Glimpses of America James W. Buel 2021-01-01 It has been my good fortune to make many trips across the continent over the various railway lines; and business and pleasure have taken me during the past several years to nearly all the accessible parts of the country, reached by rail, boat or stage-coach. Always an admirer of nature, I have longed for the means to sketch or photograph the imposing scenery which caught my enraptured eye as I hurried by. This ambition prompted the really stupendous undertaking whose fruitage is now offered to the public in all its delicious flavor, in the form of a book as herewith submitted. How the photographic views herein reproduced were obtained may be thus briefly told, and is well worthy the relation: This book was conceived more than half a dozen years ago, but a press of other engagements caused a postponement of any effort at its preparation until the spring of 1890, when the publishers engaged a corps of artists, consisting of three of the best out-door photographers in the country. A passenger car was next chartered, which was remodeled so as to provide comfortable sleeping quarters for the men in one end, a kitchen in the other, while the center was fitted up as an operating-room for taking, developing and finishing pictures. Three cameras, of as many sizes, were also provided, with three thousand prepared plates, and a great quantity of paraphernalia which might be found useful for the expedition.
