

Philosophical Hermeneutics Hans Georg Gadamer

Eventually, you will very discover a further experience and execution by spending more cash. yet when? get you undertake that you require to get those all needs bearing in mind having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will guide you to understand even more nearly the globe, experience, some places, later than history, amusement, and a lot more?

It is your completely own period to put it on reviewing habit. in the middle of guides you could enjoy now is Philosophical Hermeneutics Hans Georg Gadamer below.

The Philosophy of Gadamer Jean Grondin 2014-12-18 The ideas of the German philosopher, Hans-Georg Gadamer have had considerable influence both in their own right as the leading modern exposition of philosophical hermeneutics and interpreting the works of Heidegger, Plato and Hegel. This work covers the trail of Gadamer's thought. Taking 'Truth and Method' (1960, translated 1975) as the axis of the interpretation of Gadamer's thought, Jean Grondin lays out the key themes of the work - method, humanism, aesthetic judgement, truth, the work of history - with exemplary clarity. Gadamer's concerns are situated in the context of traditional philosophical issues, showing, for example, how Gadamer both continues, and significantly modifies, the philosophical problem as it begins with Descartes and advances rather than simply follows Heidegger's treatment of the relationship of thinking and language. In this way Grondin shows how the issues of philosophical hermeneutics are relevant for contemporary concerns in science and history.

Introduction to Philosophical Hermeneutics Jean Grondin 1994-01-01 In this wide-ranging historical introduction to philosophical hermeneutics, Jean Grondin discusses the major figures from Philo to Habermas, analyzes conflicts between various interpretive schools, and provides a persuasive critique of Gadamer's view of hermeneutic history, though in other ways Gadamer's Truth and Method serves as a model for Grondin's approach. Grondin begins with brief overviews of the pre-nineteenth-century thinkers Philo, Origen, Augustine, Luther, Flacius, Dannhauer, Chladenius, Meier, Rambach, Ast, and Schlegel. Next he provides more extensive treatments of such major nineteenth-century figures as Schleiermacher, Böckh, Droysen, and Dilthey. There are full chapters devoted to Heidegger and Gadamer as well as shorter discussions of Betti, Habermas, and Derrida. Because he is the first to pay close attention to pre-Romantic figures, Grondin is able to show that the history of hermeneutics cannot be viewed as a gradual, steady progression in the direction of complete universalization. His book makes it clear that even in the early period, hermeneutic thinkers acknowledged a universal aspect in interpretation--that long before Schleiermacher, hermeneutics was philosophical and not merely practical. In revising and correcting the standard account, Grondin's book is not merely introductory but revisionary, suitable for beginners as well as advanced students in the field.

Gadamer's Hermeneutics and the Art of Conversation Andrzej Wiercinski 2011 Gadamer's Hermeneutics and the Art of Conversation covers the nature of dialogue and understanding in Hans-Georg Gadamer's lingually oriented hermeneutics and its relevance for contemporary philosophy. This timely collection of essays stresses the fundamental significance of the other for a further development of Heidegger's analytics of Dasein. By recognizing the priority of the other over oneself, Gadamerian hermeneutics founds a culture of dialogue sorely needed in our multi-cultural globalized community. The essays solicited for this volume are presented in three thematic blocks: "Hermeneutic Conversation," "Hermeneutics, Aesthetics, and Transcendence," "Hermeneutic Ethics, Education, and Politics." The volume proposes a dynamic understanding of hermeneutics as putting into practice the art of conversation.

Gadamer's Hermeneutics Robert J. Dostal 2022-01-15 In Gadamer's Hermeneutics Robert J. Dostal provides a comprehensive and critical account of Hans-Georg Gadamer's hermeneutical philosophy, arguing that Gadamer's enterprise is rooted in the thesis that "being that can be understood is language." He defends Gadamer against charges of linguistic idealism and emphasizes language's relationship to understanding, though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience. Dostal goes on to explain the concept of the "inner word" for Gadamer's account of language. The book situates Gadamer's hermeneutics in three important ways: in relation to the contestability of the legacy of the Enlightenment project; in relation to the work of his mentor, Martin Heidegger; and in relation to Gadamer's reading of Plato and Aristotle. Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it. He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course, rejecting his teacher's reading of Plato and his antihumanism. Dostal points out notable differences in the philosophers' politics as well. Finally, Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics. His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics, a humanism defined by moral education, common sense, judgment, and taste. Supporters and critics of Gadamer's philosophy will learn much from this major achievement.

Gadamer in Conversation Hans-Georg Gadamer 2001-01-01 This volume presents six lively conversations with Hans-Georg Gadamer (born 1900), one of the twentieth century's master philosophers. Looking back over his life and thought, Gadamer takes up key issues in his philosophy, addresses points of controversy, and replies to his critics, including those who accuse him of having been in complicity with the Nazis. A genial and direct conversationalist, Gadamer is here captured at his best and most accessible. The interviews took place between 1989 and 1996, and all but one appear in English for the first time in this volume. The first three conversations, conducted by Heidelberg philosopher Carsten Dutt, deal with hermeneutics, aesthetics, and practical philosophy and the question of ethics. In a fourth conversation, with University of Heidelberg classics professor Glenn W. Most, Gadamer argues for the vital importance of the Greeks for our contemporary thinking. In the next, the philosopher reaffirms his connection with phenomenology and clarifies his relation to Husserl and Heidegger in a conversation with London philosopher Alfons Grieder. In the final interview, with German Nazi expert Dorte von Westernhagen, Gadamer describes his life

Hans-Georg Gadamer Jean Grondin 2011-06-23 Hans-Georg Gadamer (1900-2002) was one of the greatest philosophers of our era. He was also at the center of some of the century's darkest, most complex historical events, for he chose to remain in his native Germany in the 1930s, neither supporting Hitler nor actively opposing him, but negotiating instead an unpolitical position that allowed him to continue his philosophical work. In this magisterial book, Jean Grondin appraises Gadamer's life and achievement. Drawing on countless interviews with Gadamer and his contemporaries, Gadamer's personal correspondence, and extensive archival research, Grondin traces Gadamer's life as an academician and the development of his ideas, placing them in the context of his times. He sheds light on the genesis and accomplishment of Gadamer's major opus, Truth and Method, the bible of modern-day hermeneutics. And he addresses the question of Gadamer's attitude and actions amid the catastrophe of Nazi Germany, painting a balanced portrait of a scholar who tried to preserve German culture and tradition in the face of an invasive menace.

Hermeneutics, Religion, and Ethics Hans-Georg Gadamer 2008-10-01 In the years shortly before and after the publication of his classic Truth and Method (1960), the eminent German philosopher Hans-Georg Gadamer returned often to questions surrounding religion and ethics. In this selection of writings from *Gesammelte Werke* that are here translated into English for the first time, Gadamer probes deeply into the hermeneutic significance of these subjects. Gadamer raises issues of importance to ethicists and theologians as well as students of language and literature. In such outstanding essays as "Kant and the Question of God," "Thinking as Redemption: Plotinus between Plato and Augustine," and "Friendship and Self-Knowledge: Reflections on the Role of Friendship in Greek Ethics," Gadamer discusses the nature of moral behavior, ethics as a form of knowing, and the hermeneutic task of mediating ethos and philosophical ethics with one another.

Dialogue and Dialectic Hans-Georg Gadamer 1983-01-01 The author approaches Plato's dialogues as live discussions in which the concrete concerns of the participants define the horizons of discourse. He takes up such perplexing problems of Plato's though as the role of poetry in the state and the theory of ideal numbers and brings to them a fresh understanding. With its emphasis on the dialogue form and the dramatic situation, this work complements the main tendencies of the analytical tradition which dominates contemporary Anglo-Saxon writing on Plato.

Praise of Theory Hans-Georg Gadamer 1998-01-01 This collection of speeches and essays clarifies Gadamer's thoughts on the power of language, the social role and influence of science, and the idea of reason. He argues that the theoretical pursuit of truth is valuable for its own sake, and devalued when pursued explicitly for practical purposes.

Political Hermeneutics Robert R. Sullivan 1989 A distinct logic to Gadamer's early writings makes them more than mere precursors to the mature thought that appeared in Truth and Method. They contain their own, new and different, "philosophical hermeneutics" and are worth reading with a fresh eye. The young Gadamer began his publication career by arguing that Plato's ethical writings did not "express" doctrine but rather depended upon the "play" of language among speakers in an ethical discourse community. This was the key idea of Plato's Dialectical Ethics, Gadamer's first book. Following the classical formula of seeing politics as the continuation of ethics, Gadamer's writings in the 1930s and 1940s concentrated on the Platonic idea of the state and argued two key points. First, the exiling of poets from the city was a way of banishing monologue and clearing the way for a dialogue as the language form appropriate to political discourse communities. Second, the Platonic state's defining task was the educational one of shaping the soul, and this could not be achieved monologically but rather had to take place as a dialogical play between the educator and the soul. The mature philosophical hermeneutics of Truth and Method is a metaphor taken from the literary experience of constructing textual meaning out of the play of parts and whole. The philosophical hermeneutics of Gadamer's early writings rests on a play between the ethical whole initially the Gestalt figure of the "Platonic Socrates" but later the Platonic state and the individual soul in need of ethical guidance. There is no conflict between the early and the later hermeneutics, but the early hermeneutics retain a freshness of spirit and boldness of interpretation that is characteristic of the Weimar culture of Gadamer's Marburg youth. From beginning to end, Gadamer's early writings remind us that Plato's dialogues really do record the conversational essence of Western philosophy at its birth.

Philosophical Hermeneutics. Transl., Ed., (intr.) by David E. Linge Hans-Georg Gadamer 1977

Gadamer and Ricoeur Francis J. Mootz III 2011-04-14 Hans-Georg Gadamer and Paul Ricoeur were two of the most important hermeneutical philosophers of the twentieth century. Gadamer single-handedly revived hermeneutics as a philosophical field with his many essays and his masterpiece, Truth and Method. Ricoeur famously mediated the Gadamer-Habermas debate and advanced his own hermeneutical philosophy through a number of books addressing social theory, religion, psychoanalysis and political philosophy. This book brings Gadamer and Ricoeur into a hermeneutical conversation with each other through some of their most important commentators. Twelve leading scholars deliver contemporary assessments of the history and promise of hermeneutical philosophy, providing focused discussion on the work of these two key hermeneutical thinkers. The book shows how the horizons of their thought at once support and question each other and how, in many ways, the work of these two pioneering philosophers defines the issues and agendas for the new century.

Festivals of Interpretation Kathleen Wright 1990-01-01 This book engages and clarifies concepts crucial to Hans-Georg Gadamer's philosophical hermeneutics, including the concepts of effective-history, tradition, dialogue, and language. Festivals of Interpretation exhibits the universal scope of hermeneutics. The authors respond to three questions often raised about Gadamer's philosophical hermeneutics. Part One takes up the question of how Gadamer understands truth. It discusses how hermeneutical truth relates to methods, how truth may be thought to be historically conditioned without at the same time being relative, and how a truthful interpretation can produce a new understanding while simultaneously remaining faithful to the text. Part Two brings out the political, legal, and social relevance of Gadamer's philosophical hermeneutics by focusing on the role interpretation plays in times of political crisis, of disputes in Constitutional law, of changing ideas of societal needs such as health care, and of increased technological control of public opinion. The last question often asked about

Gadamer's work concerns its relation to poetry. Part Three treats the challenge posed to philosophy by poetry in general and particularly by the poetry of Paul Celan as well as questions raised recently by Jacques Derrida about different ways of thinking about interpretation and text. [Hans-Georg Gadamer on Education, Poetry, and History](#) Dieter Misgeld 2016-02-24 In these essays, appearing for the first time in English, Gadamer addresses practical questions about recent politics in Europe, about education and university reform, and about the role of poetry in the modern world. This book also includes a series of interviews that the editors conducted in 1986. Gadamer elaborates on his experiences in education and politics, touching on the collapse of the Weimar Republic, the early Frankfurt School, Heidegger and the Nazis, university life in East Germany, and the prospects for Europe in the coming years. Hans-Georg Gadamer was probably Heidegger's leading interpreter in Germany, and in the 1950s and 1960s he became the world's leading exponent of hermeneutics. His hermeneutical theory explains how it is that ancient art and philosophy still speak to us today. His influential idea of the "fusion of horizons" also shows how it is that we understand what is remote from our own culture. Dieter Misgeld is Associate Professor of the Ontario Institute for Studies of Education and the Graduate Department of Philosophy at the University of Toronto. He is coeditor of *Modern German Sociology* with V. Meja and N. Stehr. Graeme Nicholson is Professor of Philosophy at Trinity College in Toronto and author of *Seeing and Reading and Illustrations of Being*. [Humanism and Religion](#) Jens Zimmermann 2012-01-26 Jens Zimmermann suggests that the West can rearticulate its identity and renew its cultural purpose by recovering the humanistic ethos that originally shaped Western culture. He traces the religious roots of humanism, and combines humanism, religion and hermeneutic philosophy to re-imagine humanism for our current cultural and intellectual climate.

[Hermeneutics: A Very Short Introduction](#) Jens Zimmermann 2015-10-22 Hermeneutics is the branch of knowledge that deals with interpretation, a behaviour that is intrinsic to our daily lives. As humans, we decipher the meaning of newspaper articles, books, legal matters, religious texts, political speeches, emails, and even dinner conversations every day. But how is knowledge mediated through these forms? What constitutes the process of interpretation? And how do we draw meaning from the world around us so that we might understand our position in it? In this Very Short Introduction Jens Zimmermann traces the history of hermeneutic theory, setting out its key elements, and demonstrating how they can be applied to a broad range of disciplines: theology; literature; law; and natural and social sciences. Demonstrating the longstanding and wide-ranging necessity of interpretation, Zimmermann reveals its significance in our current social and political landscape. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Philosophical Hermeneutics](#) Hans-Georg Gadamer 2008-07-08 This excellent collection contains 13 essays from Gadamer's *Kleine Schriften*, dealing with hermeneutical reflection, phenomenology, existential philosophy, and philosophical hermeneutics. Gadamer applies hermeneutical analysis to Heidegger and Husserl's phenomenology, an approach that proves critical and instructive.

[Literature and Philosophy in Dialogue](#) Hans-Georg Gadamer 1994-01-01 Hans-Georg Gadamer, the major proponent of philosophical hermeneutics, reveals himself here as a highly sensitive reader and critic of the German literary tradition. This is not the work of a specialist as narrowly defined in the typical literary study. Although he is a master of the techniques of criticism, Gadamer always sees the study of literature as a fundamentally human activity where human beings, generation after generation, pose their questions to an encroaching darkness that threatens to rob them of their confidence in the meaning of life and death. Never pedantic or antiquarian, these studies show such literary giants of the German past as Goethe and Hölderlin as our contemporaries. Gadamer demonstrates his ability to achieve the creative interplay of literature and philosophy which, in isolation, easily degenerate into sterile academic games. Typical of this dialogue are essays on Rainer Maria Rilke, including an examination of a problem of punctuation in one of his poems. What would be, in less capable hands, one more solution to a literary problem, turns out to be one of Gadamer's creative approaches to the mystery of man's relation to time and death.

[Unfinished Worlds](#) Nicholas Davey 2013-11-18 Gadamer's aesthetics demonstrates that the experience of art is grounded in the objectivities of language, history and tradition. By treating words and images as transmittable placeholders for meanings and concepts, hermeneutics gives a persuasive account of how artworks communicate. Davey demonstrates how hermeneutics transforms aesthetic reflection into a poignant attentive practice that is open to the unexpected. This new "poetics" is relevant not only to the understanding of art but also to showing, explaining and defending the cognitive content of the humanities. Hermeneutic aesthetics provides a sound basis for re-thinking humanities disciplines as critical-creative practices able to re-envision the future.

[The Relevance of the Beautiful and Other Essays](#) Hans-Georg Gadamer 1986 These essays explore Hans-Georg Gadamer's writings on art and literature in English.

[Gadamer's Repercussions](#) Andrew Bowie 2004 "Gadamer's Repercussions is a terrific collection of essays. While Gadamer is not the most precise of philosophers, he turns out, in this book at least, to be among the most generative. The essays prove that Gadamer's idealizing of dialogue can actually be put in practice by careful attention to the frameworks he addresses. I was most impressed by the essays that situate his ethics, his aesthetics, his relation to romanticism, his understanding of the relation of law and morality, his engagements with Fascism, and several aspects of his vexed relationship with postmodern thinking, especially on the possibility of dialogue."—Charles Altieri, author of *The Particulars of Rapture* "Gadamer is well known for his insistence that every reading is a new reading and every act of understanding a pathway to new understanding. Krajewski's carefully assembled volume applies these maxims to the understanding of Gadamer himself. By focusing on his intellectual and political background as well as his long-range influence and repercussions, the book opens new vistas for assessing one of the philosophical giants of the twentieth century."—Fred Dallmayr, author of *Dialogue Among Civilizations*

[Truth and Method](#) Hans-Georg Gadamer 1989

[Hans-Georg Gadamer](#) Robert Kaufman 1984

[The Gadamer Reader](#) Hans-Georg Gadamer 2007-11-21 This volume begins with an autobiographical sketch and culminates in a conversation with Jean Grondin that looks back over a lifetime of productive philosophical work.

[Unquiet Understanding](#) Nicholas Davey 2006-09-08 Argues that Gadamer's philosophical hermeneutics merits a radical reappraisal.

[Consequences of Hermeneutics](#) Jeff Malpas 2010-05-30 Celebrates the 50th anniversary of the publication of one of the most important philosophical works in the 20th century with essays by most of the leading figures in contemporary hermeneutic theory.

[Truth and Method](#) Hans-Georg Gadamer 2013-06-27 Truth and Method is a landmark work of 20th century thought which established Hans Georg-Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of 'philosophical hermeneutics': exploring the nature of knowledge, the book rejected traditional quasi-scientific approaches to establishing cultural meaning that were prevalent after the war. In arguing the 'truth' and 'method' acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jurgen Habermas and many others.

[Feminist Interpretations of Hans-Georg Gadamer](#) Lorraine Code 2010-11-01

[Gadamer's Century](#) Hans Georg Gadamer 2002 A wide-ranging collection of philosophical essays in honor of Hans-Georg Gadamer.

[The Past and Future in Hans-Georg Gadamer's Philosophical Hermeneutics](#) Michael R. Young 2004

[Language and Linguisticity in Gadamer's Hermeneutics](#) Hans-Georg Gadamer 2000 In this book, internationally recognized scholars in philosophical hermeneutics discuss various aspects of language and linguisticity. The translations of Hans-Georg Gadamer's two recent essays provoke a preliminary discussion on the philosopher's polemic claim in Truth and Method—"Being that can be understood is language." Topics addressed by the contributors include the relationship of rituals to tradition and the immemorial; the unity of the word; conversation; translation and conceptuality; and the interrelationship between the art of writing and linguisticity. This work is of critical importance to anyone interested in Gadamer's claims regarding the boundaries of language, the transition from the prelinguistic to linguistic realms, and the role of rituals in this transition.

[Hermeneutics between History and Philosophy](#) Hans-Georg Gadamer 2016-05-19 Hermeneutics between History and Philosophy collects together Gadamer's remaining important untranslated writings on the problem of history and the major philosophical traditions of the 20th century from the standpoint of hermeneutics. In these writings, Gadamer examines important thinkers as Husserl, Heidegger, Sartre, Bourdieu and Habermas and their ongoing legacies. This volume also includes a preface by the editors, who are also the translators, presenting the structure of the volume, a substantial introduction situating Gadamer's particular project and examining the place of hermeneutics vis-a-vis the disciplines of history and philosophy in the 20th century. The translation is followed by a glossary of German terms and Greek and Latin expressions, as well as a bibliography of all the works cited and alluded to by Gadamer.

[Gadamer Donatella Di Cesare](#) 2013 Highlights the central place of Greek philosophy, particularly Plato, in "Truth and Method" philosopher Hans-Georg Gadamer's work, brings out differences between his thought and that of Heidegger and connects him with discussions and debates in pragmatism.

[Gadamer Georgia Warnke](#) 2013-05-08 Hans-Georg Gadamer is one of the leading philosophers in the world today. His philosophical hermeneutics has had a major impact in a wide range of disciplines, including the social sciences, literary criticism, theology and jurisprudence.

Truth and Method, his major work, is widely recognised to be one of the great classics of twentieth-century thought. In this book Georgia Warnke provides a clear and systematic exposition of Gadamer's work, as well as a balanced and thoughtful assessment of his views. Warnke gives particular attention to the ways in which Gadamer's work has been taken up and criticised by literary critics, social theorists and philosophers, such as Hirsch, Habermas and Rorty. She thus provides an introduction to Gadamer which demonstrates the relevance of his work to current debates in a variety of disciplines. This book will be invaluable to students and specialists throughout the humanities and social sciences, as well as to anyone who is interested in the most important developments in contemporary thought.

[Hans Georg Gadamer's defense of philosophical hermeneutics](#) Clark Edward A. Lunas 2006

[Praise of Theory](#) Hans-Georg Gadamer 1998-01-01 This collection of speeches and essays clarifies Gadamer's thoughts on the power of language, the social role and influence of science, and the idea of reason. He argues that the theoretical pursuit of truth is valuable for its own sake, and devalued when pursued explicitly for practical purposes.

[The Philosophy of Hans-Georg Gadamer](#) Hans-Georg Gadamer 1997 Hans-Georg Gadamer is one of the leading exponents of hermeneutics, with a formidable influence on thinking in the humanities. The two main foci of his work have been Greek philosophy, especially Plato, and hermeneutics, but his influences range through many sources, from Kant to Heidegger. This volume contains Gadamer's intellectual autobiography, essays by leading philosophers, Gadamer's replies to each essay, and a bibliography of Gadamer's writings.

[The Idea of the Good in Platonic-Aristotelian Philosophy](#) Hans-Georg Gadamer 1986-01-01 One of this century's most important philosophers here focuses on Plato's Protagoras, Phaedo, Republic, and Philebus and on Aristotle's three moral treatises to show the essential continuity of Platonic and Aristotelian reflection on the nature of the good. "Well translated and usefully annotated by P. Christopher Smith.... Gadamer's book exhibits a broad and grand vision as well as a great love for the Greek thinkers."--Alexander Nehamas, New York Times Book Review "The translation is highly readable. The translator's introduction and frequent annotation provide special elucidation on points of doctrinal complexity, giving ample references to other works and rival interpretations."--Choice "This book is an important addition to the steadily growing number of Gadamer's works available in English. In it, we see Gadamer at his best, that is, engaged in the practice of interpreting important texts from the philosophical tradition, and also at his most controversial.... I enthusiastically recommend this...challenging book as one that rewards all efforts to understand the important claims it makes on its readers."--Francis J. Ambrosio, International Philosophy Quarterly Hans-Georg Gadamer is professor of philosophy emeritus at the University of Heidelberg. He is the author of numerous books, including two others translated by Smith: *Dialogue and Dialectic: Eight Hermeneutical Studies on Plato and Hegel's Dialectic: Five Hermeneutical Studies*.

[The Cambridge Companion to Gadamer](#) Robert J. Dostal 2002-01-21 The most convenient and accessible guide to Gadamer currently available.

[Gadamer's Century](#) Jeff Malpas 2002-01-18 Philosopher Hans-Georg Gadamer has made major contributions to aesthetic theory, Plato and Hegel studies, humanistic studies, and the philosophy of history. A student of Martin Heidegger, Gadamer took up and developed a number of central Heideggerian insights. He also had productive public debates with contemporaries such as Emilio Betti and Jürgen Habermas. The shape of contemporary hermeneutics is due almost entirely to Gadamer's influence, and his magnum opus, Truth and Method, is considered one of the great philosophical works of the twentieth century. This book is dedicated to Gadamer in honor of his hundredth birthday, in 2000. The essays provide a measure of the classical character of Gadamer's work by showing the breadth of engagement his ideas

have provoked. As in Gadamer's own life and work, dialogue and conversation figure as important themes in all of the essays. While they encompass a diversity of philosophical perspectives, interests, and styles, the essays also suggest the ever-present possibility of dialogue across language and tradition and of the formation of new modes of discourse and philosophizing.
