Adapting to the Digital Trade Era World Trade Organization 2021-03-12 This study looks at how the rapid adoption of digital technologies could help developing countries increase their participation in world trade. It also reviews the role that domestic policies and international cooperation can play in creating a more prosperous and inclusive future for these countries. This publication marks the conclusion of the second phase of the WTO Chairs Programme (WCP), which aims to support and promote trade-related academic activities by universities and research institutions in developing and least-developed countries. The book brings together contributions from WCP chairholders, Advisory Board members, the WCP team at the WTO and other WTO Secretariat staff. The WCP is an important part of the WTO's efforts to build trade capacity and to work jointly with academic institutions in developing countries. Academic institutions awarded WTO Chairs receive support in the areas of curriculum development, research and outreach activities. The chairholders are selected through a competitive process. Fourteen institutions were originally selected as WTO Chairs for a four-year term in 2009. Seven institutions were added to the Programme in 2014. This publication consists of two volumes. The first volume, Overview and One-Page Case Summaries, contains a one-page summary for each identified GATT dispute, recording all relevant steps and documents, and indexes the information by relevant parties, agreements and provisions. The second volume, Dispute Settlement Procedures compiles for the first time all GATT dispute settlement procedures, as well as a selection of other key documents of historical interest.

Trading Promises for Results Mauricio Mesquita Moreira 2019-09-23 Thirty years after the region embarked on large-scale liberalization, trade policy could have been expected to become all but irrelevant. Instead, a mismatch between expectations and what could realistically be delivered set the stage for much of the disappointment, skepticism, and fatigue regarding trade policy in the region, particularly in the early 2000s. By setting the bar unrealistically high, governments and analysts made trade policies an easy target for special interests that were hurt by liberalization and for those ideologically opposed to free trade. The most immediate victims were the more tangible growth and welfare gains, whose relevance was lost amid the noise of grandiose visions.

Green Logistics Alan McKinnon 2015-02-03 The transport, storage and handling of goods impose a heavy burden on the environment. As concern for the environment rises, companies must take more account of the external costs of logistics associated mainly with climate change, air pollution, noise, vibration and accidents. Leading the way in current thinking on environmental logistics, Green Logistics provides a unique insight on the environmental impacts of logistics and the actions that companies and governments can take to deal with them. It is written by a group of leading researchers in the field and provides a comprehensive view of the subject for students, managers and policy-makers. Fully updated and revised, the 3rd Edition of Green Logistics takes a more global perspective than previous editions. It introduces new contributors and international case studies that illustrate the impact of green logistics in practice. There is a new chapter on the links between green logistics and corporate social responsibility (CSR) and a series of postscripts examining the likely effects of new developments, such as 3D printing and distribution by drone, on the environmental footprint of logistics. Other key topics examined in the book include: carbon auditing of supply chains; transferring freight to greener transport modes; reducing the environmental impact of warehousing; improving the energy efficiency of freight transport; making city logistics more environmentally sustainable; reverse logistics for the management of waste; role of government in promoting sustainable logistics Ideal for use on related courses, the 3rd Edition of Green Logistics includes indispensable online supporting materials, including graphics, tables and chapter summaries, as well as technical information and guidelines for teachers and lecturers. The book is endorsed by the Chartered Institute of Logistics and Transport (CILT).

Manual of Tests and Criteria United Nations 2020-01-06 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".

Reinvent Your Retirement Charles W. Davis 2010-08-19 What is your dream of retirement? Sitting on a tropical beach sipping a drink as the sunsets? Sitting on your back porch looking at the distance mountains? Everyone has a different view of retirement. People are living longer and it is possible that you will have as many years in retirement as you did working years. Those years are more likely to be active. Some people look at retirement in the old tradition, work till your 65, move to Florida, play golf or bridge, sit watching television till you and your friends are all dead. More and more people are throwing away those old fashion notions and "retirement" becomes "reinventing" their lives . In the last couple of decades, pre-retirees are looking outside of their own country to retire. The more adventurous nature of the current baby boomer is having them look for something different. They want a comfortable live style but are flexible to what that means. Make a list of what you enjoy and what you want in life. Then explore how to get there. You may find that getting to what is important in your future is not as far off as you thought. Once you have your plan then put it in motion. The Philippines is one country that is becoming increasingly popular. Having been a Spanish colony for centuries there is a Spanish flavor to the country, and having been an American territory for decades it also has a large American influence. English is widely spoken and is in fact one of the country's official languages. The people are genuinely friendly. The cities and urban areas are well developed. The country is seeing an increase in international tourism. Many of the items that attract tourist to an area is equally attractive to retirees. The Subic Bay area is very well suited for retirees. Having been the home of a US Navy base it is used to Americans and has a large number of retirees. This book explores Subic Bay as a place to live and enjoy your reinvented retirement. Ideal for singles and families.

Midnight In Sicily Peter Robb 2014-08-05 A New York Times Book Review Notable Book of the Year A New York Public Library Best Book of the Year From the author of M and A Death in Brazil comes Midnight in Sicily. South of mainland Italy lies the island of Sicily, home to an ancient culture that--with its stark landscapes, glorious coastlines, and extraordinary treasure troves of art and archeology--has seduced travelers for centuries. But at the heart of the island's rare beauty is a network of violence and corruption that reaches into every corner of Sicilian life: Cosa Nostra, the Mafia. Peter Robb lived in southern Italy for over fourteen years and recounts its sensuous pleasures, its literature, politics, art, and crimes.

ISORA 2018: Understanding Revenue Administration William Crandall 2021-11-03 The International Survey on Revenue Administration (ISORA) collects tax administration data from national or federal tax administrations. It surveys tax administration operations and other characteristics based on common questions and definitions agreed by four international organizations: the Inter-American Center of Tax Administrations (CIAT), the International Monetary Fund (IMF), the Intra-European Organisation of Tax Administrations (IOTA), and the Organisation for Economic Co-operation and Development (OECD). These four Parties signed a Memorandum of Understanding (MOU) governing the administration and management of this worldwide survey. This publication presents the results of the International Survey on Revenue Administration (ISORA) 2018, encompassing responses from 159 national or federal tax administrations spanning profile information, performance, and practices in fiscal years 2018 and 2019. For ISORA 2018, the ISORA Parties partnered with the Asian Development Bank (ADB) to provide assistance to its members who were participating in the survey.

WHO guideline on country pharmaceutical pricing policies 2020-09-29 In recent years, high prices of pharmaceutical products have posed challenges in high- and low-income countries alike. In many instances, high prices of pharmaceutical products have led to significant financial hardship for individuals and negatively impacted on healthcare systems' ability to provide population-wide access to essential medicines. Pharmaceutical pricing policies need to be carefully planned, carried out, and regularly checked and revised according to changing conditions. Strong, well-thought-out policies can guide well-informed and balanced decisions to achieve affordable access to essential health products. This guideline replaces the 2015 WHO guideline on country pharmaceutical pricing policies, revised to reflect the growing body of literature since the last evidence review in 2010. This update also recognizes country experiences in managing the prices of pharmaceutical products.

International Merchandise Trade Statistics United Nations Department of Economic and Social Affairs 2017-02-22 The International Merchandise Trade Statistics: Compilers Manual, Revision 1 (IMTS 2010-CM) supports statisticians in countries in the implementation of the new and updated recommendations contained in International Merchandise Trade Statistics: Concepts and Definitions, Revision 3 (IMTS 2010). The Manual contains further and more detailed explanation of certain recommendations and provides practical guidance for trade statistics compilers by describing good or best practices applicable under different circumstances. However, the Manual is also a very valuable source of information for all users and analysts of trade statistics as it highlights critical issues of trade statistics and its compilation and describes existing country practices in numerous examples. Readers will gain an inside look in trade statistics, allowing an in depth understanding of issues and practises.

From Stimulus to Consolidation Mr. Benedict J. Clements 2010-10-06 This paper identifies policy tools that could be used for fiscal consolidation in advanced and emerging economies in the years ahead. The consolidation strategy, particularly in advanced countries, should aim to stabilize age-related spending in relation to GDP, reduce non-age-related expenditure ratios, and increase revenues. Bold reforms are needed to offset projected increases in age-related spending, particularly health care. On the revenue side, measures could include improving tax compliance, for example through better international cooperation, as well as increasing the yield from VAT by eliminating exemptions and reduced rates, further developing property taxes, and increasing excise rates within the range of rates already applicable in comparable countries.
