He Wrapped My Pain in His Glory Muriel Avant Fuqua 2014-10-03 "Knowledge held within is dead knowledge. Share it with others, and then it is resurrected." These are words that Apostle Dr. Muriel Avant Fuqua lives by. Though, throughout her life, there have been plenty of things she'd rather have kept silent about, she has learned, firsthand, that it is these very traumas that must be brought into the light so their power can be broken and healing can begin. A shining example of the necessity to speak out—and a cautionary tale about the harm and dysfunction that results from silence—this empowering memoir is about overcoming the debilitating pain of abuse and infidelity through the healing power of a loving God. At the same time, Dr. Fuqua's debut book serves as an excellent educational source on the challenging issues of women in ministry and church hurt. Over the years, Dr. Fuqua has experienced more than her fair share of pain, but she has also discovered the amazing truth that God can truly renew brokenness. And her life, her marriage, and her church all declare the good news. Discover for yourself the peace of Christ, as you learn from her story how you, too, can step into the light and wrap your pain in the glory of God.

*The Joy of Secularism* George Levine 2021-05-11 The case for a thoughtful secularism from some of today's most distinguished scientists, philosophers, and writers Can secularism offer us moral, aesthetic, and spiritual satisfaction? Or does the secular view simply affirm a dog-eat-dog universe? At a time when the issues of religion, evolution, atheism, fundamentalism, Darwin, and science fill headlines and invoke controversy, *The Joy of Secularism* provides a balanced and thoughtful approach for understanding an enlightened, sympathetic, and relevant secularism for our lives today. Bringing together distinguished historians, philosophers, scientists, and writers, this book shows that secularism is not a mere denial of religion. Rather, this positive and necessary condition presents a vision of a natural and difficult world—without miracles or supernatural interventions—that is far richer and more satisfying than the religious one beyond. From various perspectives—philosophy, evolutionary biology, primate study, Darwinian thinking, poetry, and even bird-watching—the essays in this collection examine the wealth of possibilities that secularism offers for achieving a condition of fullness. Factoring in historical contexts, and ethical and emotional challenges, the contributors make an honest and heartfelt yet rigorous case for the secular view by focusing attention on aspects of ordinary life normally associated with religion, such as the desire for meaning, justice, spirituality, and wonder. Demonstrating that a world of secular enchantment is a place worth living in, *The Joy of Secularism* takes a new and liberating look at a valuable and complex subject. The contributors are William Connolly, Paolo Costa, Frans de Waal, Philip Kitcher, George Levine, Adam Phillips, Robert Richards, Bruce Robbins, Rebecca Stott, Charles Taylor, and David Sloan Wilson.

evolutionary biology, Religion Explained shows how this aspect of human consciousness is increasingly admissible to coherent, naturalistic explanation. This brilliant and controversial book gives readers the first scientific explanation for what religious feeling is really about, what it consists of, and where it comes from.

Peter Tim Sawyer 2016-02-22 This Bible study discussion guide is on Simon the Rock. That's what Jesus called him. We call him Peter. We can only look at a person on the outside. Jesus looks on the inside. Jesus sees what we are, our failures, our flaws, and by faith our fabulous futures! Jesus said, "Follow me." How do we do that? What does that mean? This New Testament guide helps you figure that out. The author wrote this as a Bible discussion guide for his small group. This book examines 51 scenes from the life of Peter. The author paraphrases in his own words what is going on in each biblical scene. Scripture references allow you to look up the details more fully if you wish. 200 questions are provided as tools to deepen your faith. These conversation starters help you discuss, ponder, or share your thoughts. The goal of the questions is to help you feel what it was like to follow Jesus like Peter did. The author's plan is to read the scene, ask the questions and let friends share. You can follow Jesus and grow closer at the same time. Watch Peter follow Jesus. Discover some pointers for your own life. Try it!

Breaking Pride Heather Bixler 2012-03-08 So many of us desire freedom - the freedom that is promised to us when we decide to follow Jesus. The freedom from the burden of our sin, the need to be "good enough," anger, jealousy, and envy. Even though we are believers we would be ashamed to say that we don't always experience peace, contentment, and joy in our life. We are looking for the grace that God has so graciously given to us to be real in our life... Breaking Pride is an eBook based on one simple truth: In order to walk in God's grace we need to tear down the the walls of pride. A lot of believers, even though saved by God's grace, are still walking in pride rather than walking in His grace. Knowing what pride is and learning to identify pride in your life is the first step to overcoming a life filled with pride. Pride is rooted in fear and leads to anger, jealousy, and envy. Sin isn't keeping us from having a relationship with the Lord, it's our pride. So many of us long to have an authentic and REAL relationship with the Lord, and we long to have the fruit of the spirit filled in our heart. Our desire is to achieve these fruits through will power. But we do not even realize that the pride that lives within our heart is what is blocking the fruit of the spirit from living within us. In Breaking Pride you will learn to identify different areas of pride in your life. Filled with encouragement, Breaking Pride will take you through a practical reading of what pride may look like in your life... Let's stop building walls of pride and start building the foundation of grace within our lives...

Why We Believe in God(s) J. Anderson Thomson 2014-07-01 In this

groundbreaking volume, J. Anderson Thomson, Jr., MD, with Clare Aukofer, offers a succinct yet comprehensive study of how and why the human mind generates religious belief. Dr. Thomson, a highly respected practicing psychiatrist with credentials in forensic psychiatry and evolutionary psychology, methodically investigates the components and causes of religious belief in the same way any scientist would investigate the movement of astronomical bodies or the evolution of life over time—that is, as a purely natural phenomenon. Providing compelling evidence from psychology, the cognitive neurosciences, and related fields, he, with Ms. Aukofer, presents an easily accessible and exceptionally convincing case that god(s) were created by man—not vice versa. With this slim volume, Dr. Thomson establishes himself as a must-read thinker and leading voice on the primacy of reason and science over superstition and religion.

Biblically Sound Evan Lenow 2014-08-09 Studying doctrine for the Christian often feels like watching a construction crew build a foundation. There seems to be a great amount of activity, but the results don't appear visible. Just like the foundation is essential for the stability of a building, studying theology is crucial to the long-term stability of the believer. The goal of this study is to provide you with the basics of biblical doctrine to make sure your foundation is sound. At times this will feel like the difficult work of laying an unseen foundation for a building. At other times, however, it will feel like we are soaring to great heights as we explore the breadth and length and height and depth of our faith. During the course of this study, we will consider the questions: Why study theology? Who is God? Who am I? What is the church? Where do I go when I die? Why do other people believe differently?

Alternative Concepts of God Andrei Buckareff 2016-01-21 The concept of God according to traditional Judeo-Christian-Islamic theism minimally includes the theses that there is one God-an omniscient, omnipotent, and morally perfect agent, who is the creator of the universe and the sustainer of all that exists, and who is an immaterial substance that is ontologically distinct from the universe. Proponents of alternative concepts of God, such as pantheism, panentheism, religious anti-realism, developmental theism, and religious naturalism, exclude at least one of these claims. This volume aims to shed light on alternative concepts of God and to thoroughly consider their merits and demerits. The contributors are leading analytic philosophers of religion, including critics of these views as well as sympathizers. This is the first contemporary edited collection featuring the work of analytic

philosophers of religion covering such a wide range of alternative concepts of God. Does the New Scientific Evidence about the Origin of Life Put an End to Darwinian Evolution? John Ankerberg 2018-04-12 Dr. Meyer will show you what scientists have found in the human cell and its implications for how life originated. This series shows why the possibility of one human cell coming into existence by natural selection is simply impossible, and explains how scientists are being forced to consider that the complex information and intricate design in the cell can only point to an outside intelligent designer, namely God.

The Church Alumni Association Robert P. Vande Kappelle 2021-08-10 Many people today, including Christians of deep conviction, are deciding, for one reason or another, to stop attending church. They have been swept up by the avalanche in America known simply as the “nones,” thereby joining the ranks of the religiously unaffiliated dubbed the “church alumni association”—or perhaps more accurately “believers in exile”—by Anglican Bishop John Shelby Spong. Research shows that during the first two decades of the twenty-first century, a seismic shift occurred in the U.S. population away from religious institutions and toward disaffiliation. While the causes and effects of this dislocation are varied and numerous, by 2015, the phenomenon of shrinking faith communities was so widespread that “nones” became the third largest religious identity in the world, behind Christians and Muslims. Today there are more religious “nones” than Catholics or evangelicals, and 36 percent of those born after 1981 do not identify with any religion. Does this shift mark a loss of spirituality, or do these changes point to a new global religious awakening, one that affirms religious pluralism and views faith relationally rather than dogmatically—as a way of the heart and not of the head? While some Christians are staying put, experiencing the current shift in traditional church settings, this book proposes a new understanding of the church, a new pattern and vision for Christian living and thinking that can transform our understanding of God, others, nature, and ourselves. Useful for individual or church study, each chapter of The Church Alumni Association concludes with questions for discussion and reflection.

I Have Some Good News Preston Condra 2017-03-23 The Gospel of Christ is a message which claims to save from damnation those who believe it. This "good news" message purports to reveal who saves, what he did, why we need it, how we get it, and where to find reliable information about it. The Gospel, however, is widely doubted, disputed, and denied. Many wonder: - Does Jesus have to be who Christians claim he is? - What did his death accomplish? - Why would God send me to hell? - Can faith really be all there is to it? - Do I need to trust the Bible? Using Bible verses, "I Have Some Good News" addresses objections to the Gospel, and allows Christianity's source book to speak for itself.

Consciousness V Catastrophe Gillian Ross 2016-06-25 "The significant problems we face cannot be solved at the same level of thinking we were at when we created them." Albert Einstein. The current crises besetting humanity call for a revolution in consciousness and a mystical renaissance that will bring about a whole new story of what it means to be human. To this end, Consciousness v Catastrophe introduces the reader to the new philosophy of Evolutionary Spirituality. It is a philosophy that is engaging visionary scientists, philosophers and spiritual thinkers across the planet. They are forging a new understanding of evolution that honours science, reframes culture and radically updates spirituality. Evolutionary Spirituality celebrates the realization that the creative energy, that has driven the evolution of the universe for billions of years, is now becoming conscious of itself through us. It sees consciousness, not matter, as centre stage in the mystery that is evolution and reconnects us to the sacred dimension of existence. Above all, it helps to liberate us from the contracting concerns of ego, inspiring us to awaken our mystical and creative potential, and serve the bigger picture with humility, gratitude and a profound sense of our unique purpose. The first half of the book looks at the Big Picture of evolution- physical and cultural - and brings the reader into the revolutionary implications of seeing human consciousness as the emerging driving force of evolution replacing natural selection. The second half explores the new story of Evolutionary Spirituality, including its compatibility with contemporary scientific knowledge and the possibilities for consciousness that can be gleaned from the spiritual wisdom of mystics from all times and traditions. With the help of profound quotations and website references, the book aims to inspire the reader to explore the teachings of many of the most prominent evolutionaries who, in their writings and in online conversations and courses, are promoting the consciousness revolution across the

planet.
