Mental Toughness Michael Sheard 2009-06-26 Mental toughness is one of the most common terms used in sport – by athletes, coaches, spectators and the media. However, it is also one of the least understood terms. This book provides a definitive and readable overview of the area, and presents the cutting-edge research in the field of mental toughness. The book introduces the historical and conceptual arguments behind this research, and looks at the characteristics and development of mentally tough sport performers. It suggests that mental toughness is a personality style and mindset, presenting a case for its inclusion within the positive psychological paradigm. The book also explores various measures of this concept and their psychometric properties, and considers cultural and national perspectives as well as the possibility of mental toughness heredity. Sheard exposes the development and maintenance of mental toughness as a factor for successful sport and life performance, and discusses the possibilities for future research on the subject. This book is unique in considering the idea of mental toughness as an 'achievement mindset' and is an invaluable resource for sport and exercise psychology and science students and lecturers. It also provides an important reference for sport participants, coaches, and enthusiasts.

A History of Organizational Change Hans Erik Næss 2020-07-13 This book is the first independent exploration of the Fédération Internationale de l'Automobile's (FIA) institutional history. Virtually unexamined compared with similar institutions like the FIFA and the IOC, the FIA has nevertheless changed from being a small association in 1904 to becoming one of the world's most influential sport governing bodies. Through chronologically organised chapters, this book explains how the FIA manages to link together motorsport circuses like Formula 1 with the automotive industry and societal issues like road safety and environmental sustainability. In an exciting narrative spanning seven decades, it reviews the FIA's organisational turning points, governing controversies, political dramas and sporting tragedies. Considering the FIA to be a unique type of hybrid organisation characterised by what the author calls 'organisational emulsion', this case study contains theoretical innovations relevant to other studies of sport governing bodies. It makes an empirically grounded contribution to the research fields of institutional logics, historical sociology and sport governance.

Power and the Glory David Sedgwick 2018-02-01 Set amid the glamour and bravado of 1980s Formula 1, *The Power and the Glory* tells the story of a rivalry unsurpassed in motor-racing history. Although chalk and cheese in terms of character and background, the two men were driven by the same burning desire: to become Formula 1's heavyweight champion of the world, its undisputed king. Their Suzuka showdowns of 1988-90 attracted record worldwide audiences and popularised the sport as never before. An intimate portrait of two unique competitors, *The Power and the Glory* is a supercharged story of acrimony and sheer ambition.

Alain Prost Maurice Hamilton 2015-09-24 Four-time Formula One Drivers' Champion Alain Prost is one of the best racing drivers of all time. Having discovered karting at the age of 14 during a family holiday, Prost progressed through motorsport's junior ranks, winning the French and European Formula Three championships, before joining the McLaren Formula One team in 1980 at the age of 24. In his six seasons with McLaren, Alain Prost won 30 races and three driving titles and in 1985 he became the first French World Champion. In 1986 he became the first back-to-back champion since Jack Brabham 26 years earlier. In 1987, his 28th Grand Prix victory beat Jackie Stewart's 14-year-old record. However, in 1988 his brilliant new team mate Ayrton Senna won eight races and the driving title. Thus began the sensational rivalry that conspired to push two of the sport's greatest drivers to unprecedented heights of success and controversy, and the most bitter feud in Formula One history.

Not Without Hope Nick Schuyler 2010-12-28 On February 28, 2009, Nick Schuyler went on a deep-sea fishing trip with three friends: NFL players Marquis Cooper and Corey Smith, and Will Bleakley, former University of South Florida football player and Nick's best friend. What was supposed to be a day of fun and relaxation aboard Cooper's twenty-one-foot vessel turned nightmarish in the Gulf of Mexico, seventy miles west of Tampa, Florida, when a tragic mistake caused their boat to capsize. With no food or water, no emergency beacon to alert authorities, the four athletes clung to the overturned hull through the night—battling hypothermia, hallucinations, hunger, dehydration, and huge pounding waves, as they prayed, spoke of their loved ones, and shared what they would have done differently with their lives. In the end, only one would reach dry land alive. Much more than a riveting true account of survival, Not Without Hope is Nick Schuyler's inspiring story of courage, resolve, and friendship.

Senna Versus Prost Malcolm Folley 2009-05-07 In the late eighties and early nineties, Formula One was at its most explosive, with thrilling races, charismatic drivers, nail-biting climaxes - and the most deadly rivalry ever witnessed in sport. Two of Formula One's most honoured champions and iconic figures drove together for McLaren for two seasons, and their acrimonious and hostile relationship extended even after one of them had left the team. ALAIN PROST, France's only F1 world champion, the intelligent, smooth driver

with the epithet 'Le Professeur'. AYRTON SENNA, the mercurial kid from a privileged background in Sao Paulo who would become the most intense and ruthless racing driver the world has ever seen. It was a story that would have a tragic ending. As the great rivals raced to victory, their relationship deteriorated badly, beginning with the breaking of a gentleman's agreement, and public spats followed, culminating in Prost accusing Senna of deliberately trying to ride him off the circuit, and fearful that the Brazilian would get someone killed with his daring overtaking feats. And the final, sad act of this drama happened at the San Marino Grand prix at Imola in May 1994, when Senna was killed. Featuring a rare interview with Prost, and insight from Martin Brundle, Damon Hill, Sir Frank Williams, Bernie Ecclestone, Derek Warrick, Johnny Herbert, Gerhard Berger, plus McLaren insiders and other F1 figures, Malcolm Folley provides us with a breath-taking account of one of the all-time classic sporting rivalries.

The Wounded Healer David Sedgwick 2003-09-02 Countertransference is an important part of the analytical process. It is concerned with the analyst's emotional response to the patient. As such, it can be a particularly difficult aspect of the analytical setting and especially so because of the threat of possible sexual involvement with the patient. At present there is little available on this difficult topic. Jungian analyst David Sedgwick tackles the subject bravely and shows how to use the countertransference in a positive way. The result is one of the finest Jungian clinical texts of recent years.

sixteen-year-old coxswain from California. On hand to guide them was Harry Parker, the legendary Harvard men's crew coach who overcame his doubts about the ability of women to withstand the rigors of hard training.
